Alifax, N. S., Feb. 7.—During a raging and blinding snowstorm which has swept the Nova Scotia coast for the past twenty-four hours, the ocean steamer Damara, of the Furnessia line, ran on the rocks at Musquodoboit, thirty miles east of Halifax, early today, and is believed to have foundered with the loss of many lives. The first officer of the ship, with eighteen of the crew, escaped in one of the lifeboats and landed at Pleasant Point, after a terrific struggle with wind and sea. Captain Gorst, master

They have not been heard of since, and it is feared that they have perished. The occupants of the boat which reached shore were utterly exhausted, and many of them were badly frostbitten. They had a harrowing experience, battling in the darkness for hours in the open boat, with tempestous seas on a treacherous coast, with the thermometer 10 degrees wind and sea. Captain Gorst, master ast, with the thermometer 10 degrees below zero, and an Arctic blizzard rag-ing. BILL PASSED BY HOUSE WILL AID

"The dance hall evil," with which sait Lake has been recently contending is directly affected by a provision of house bill No. 42, by Wootton, which yesterday passed the lower branch of the legislature on third reading. Wootton's bill is entitled, "An act to amend section 266, revised statutes of Utah, 1898, relating to the power of city councils, as amended by chapter 138, session laws, 1903."

The section through, which it is proposed to get at dance halls was inserted as an amendment by the judiciary committee at the instance of Chairman Kinney. It delegates to city councils the power "to license, tax, regulate, prohibit or suppress dancing" covers the ground that Wootton's amended house bill does.

The dancing resorts, dancing pavillons and all piaces or resorts to which persons of opposite sexes may resort for purposes of dancing or indulging in other social amusements."

At present, the city council of Salt Lake has no authority by which it may reach resorts of the above mentioned nature. When Chief of Polic Lynch closed the Utahna park pavilion last week, he did so because the management had not yet obtained a license for this year. Neither this, however, nor the city ordinance prohibiting the maintenance of a dance house where "disorderly persons assemble together for dancing" covers the ground that Wootton's amended house bill does.

Considerable satisfaction is felt, consequently, at the washington telegram stating that assurances have been given by Ambassador Cassini that Sir Mortimer Durand's and Mr. Spring-Rice's presence at the White House was in no way connected with the termination of the war. This is all the more readily believed because the diplomatic worid is aware that Mr. Spring-Rice is a personal friend of Mr. koosevelt. On the other hand the visits of Count Cassini and Minister Takahira to Secretary Hay are more easily attributed to discussions of Chinese neutrality than to terms of peace. The prevailing opinion among diplomats in St. Petersburg is that Janan and Russia would choose France rather than the United States when the time arrives to discuss terms of peace. It is difficult, if not impossible, to tell when this time will come.

The present current of press and public opinion in Russia appears to be setting toward peace. The newspapers no longer proclaim the necessity of continuing the war at all costs. Articles appearing in the Russ and the Novoe Vremva under the signatures of well known war correspondents who have just returned from Manchuria criticize the conduct of operations there in unmeasured terms, while these papers editorially declare that hopes of victory are remote. The Novoe Vremya bluntly remarks:

of victory are remote. The Novoe Vremya bluntly remarks:

"We go out buying evening editions hoping to hear news of a Russian success, but little or nothing is done to assure it."

The war never has been, in the fullest sense of the word, popular. The present distress and discontent of the working class and the general desire for reform by the upper class may develop a strong peace movement with which the government may have to reckon, but on the other hand it is generally admitted that if peace should be concluded under disadvantageous conditions it would ma-
